<ul style="list-style-type: none"> • BSBWOR502 Lead and manage team effectiveness • CUAPPM411 Compile production schedules • CUAPPM402 Coordinate production operations • CUAIND502 Maintain and apply creative arts industry knowledge • CUAIND402 Provide freelance services 					

Clothing and additional costs

Shortly after arriving at NIDA you may be required to have a set of black clothes (i.e. long sleeved black top, with no visible logos/designs and long black trousers) and black shoes for production work. All black clothes should be neat and presentable.

You should also have sturdy, protective footwear for working in workshops and theatres; rubber-soled work boots (Blundstones, Redbacks or similar), hiking boots with leather uppers, or something similar (steel caps recommended but not compulsory). Steel toed Dunlop Volleys are NOT recommended. Your boots should have good ankle support, and you may wish to consider investing in a pair of cushioned inner soles. Canvas slippers, open toed shoes and sandals are not suitable footwear for workshops or the theatres.

You should be prepared to buy a small tool kit; the main pieces of equipment you will need are listed below. If you take care of this equipment it will last many years. Stanley, Sidchrome, and Staedtler are considered reliable brands.

- a multi tool
- 8 metre metric steel tape
- a 300mm scale rule
- 2 x 200mm or 8" adjustable wrench
- a torch
- a pair of riggers or yachting gloves for focusing/rigging
- a small headlamp

NIDA will provide the greater part of additional resources and consumables required for the training.

Information Technology Recommendations

To access NIDA wireless (iWIRE) network, students are required to have access to a Laptop (Windows 7 and later), Macbook (Mac OS X 10.6 Snow Leopard or later) or a Tablet (less than three years old with wireless facility). All the devices should comply with 802.11a/b/g/n WPA-Enterprise security. All notebooks should be secured with a Kensington lock to help prevent theft.

For file transfers and data backup, a 500GB hard drive or higher and an 8GB USB stick are also recommended, as is a DVD burner, for optimum visual graphics on your computer (Laptop/MacBook/Desktop etc.) a 1GB dedicated graphics card is recommended but not required.
